Theme:

Our main goal is to make life easier. In daily life we always sell something maybe we give rent also often we donate many things.

We face many obstacles in everyday life for these kinds of work.

This project can help to solve the problem and save our valuable time. By this software user can post about(rent,sell,donation) other user can search for these.

Like when our semester is over we can donate our books and someone can take the donation by depend on his/needs, or when we visit another city someone can post for bike rent and you can take the rent by searching for it .

All things can be done by our Software .
